

BSPED Research Narrative – Oxford

We have contributed to National Multi-Centre studies and were local recruiting sites for:

- National Growth Hormone Treatment and Quality Of Life Study
- SAGhE study
- Health in children and young people with CAH
- PATRO study
- ECOS study

We have collaborated with local colleagues in reporting Outcomes for:

- Craniopharygioma
- MEN

We have contributed to the literature by:

- Submitting case reports
- Submitting outcomes for audits and quality improvement initiatives
- Completing invited reviews
- Completing invited book chapters

Future Plans

Over the coming 5 years we would appreciate the opportunity to progress local involvement with research as we have now appointed a third Consultant on Paediatric Endocrinology at Oxford and now have GRID trainees in post so additional time and energy will be available for contribution to research activities.
