and Diabetes**

BSPED October 2025

BSPED 2025

Wednesday 12 - Friday 14 November 2025

Cutler's Hall, Sheffield

52nd ANNUAL MEETING

LAST CHANCE TO JOIN US AT BSPED ANNUAL CONFERENCE!

There's just two weeks to go until the BSPED Annual Meeting! Join us in Sheffield from 12-14 November as we meet to discuss the latest advancements and innovation in paediatric endocrinology. To ensure you make the most of your time and experience everything our programme offers, we've highlighted some important sessions and social events you will want to attend.

Connect with your community at BSPED social events

- **Welcome Reception**

The Cutlers' Hall, Sheffield

Wednesday 12 November 18:00 - 19:00

Join us for a drinks reception and enjoy an evening of networking. Enjoy delicious canapés and drinks while connecting with fellow attendees in one of Sheffield's most breathtaking venues.

- **Annual Meeting Conference Dinner**

Crowne Plaza, Victoria Station Road, Sheffield

Thursday 13 November at 19:30

The Conference Dinner offers the opportunity to socialise with colleagues and peers in a relaxed environment. The evening will include a drinks reception, three course dinner, and entertainment from

award winning cover band, [Undercovered](#)! Admission is by ticket only; you can purchase your ticket during the registration process.

Scientific programme highlights

- Discover who is the winner of the prestigious James M Tanner Lifetime Achievement Award for 2025, awarded to a BSPED member to recognise outstanding contribution to the BSPED and the field of paediatric endocrinology and diabetes.
- Thursday morning will include PENS sessions, scheduled for our Paediatric Endocrine Nurses community and include their annual meeting.
- Chair of BSPED, Talat Mushtaq, Leeds, will be delivering a plenary talk titled: Navigating the role of paediatric endocrinology in young people's gender services

[Register for the BSPED Annual Conference](#)

Merck, a leading science and technology company, operates in the fields of life science, healthcare, and electronics.

Merck is committed to improving the lives of people with a range of endocrine and metabolic disorders including growth hormone deficiency and diabetes. We were pioneers in making recombinant human growth hormone available for the treatment of growth hormone deficiency in children and adults. Merck continues to bring benefits to patients through its treatments and its family of easy-to-use drug delivery devices, which help both children and adults with growth hormone deficiencies.

Merck is a pioneer in the digitisation of growth hormone treatment, providing treatment alongside an innovative digital ecosystem used by thousands of patients in the UK and Ireland. We are proud to offer a unique connected device: easypod3®, the only device currently available that records the date and time of growth hormone injections, and whether the full dose has been delivered¹.

Information is automatically uploaded to our digital ecosystem Growzen™ to help healthcare professionals visualise the frequency of injections, missed doses, set patient reminders and monitor overall progress. The related patient and caregiver app Growzen™ Buddy offers ongoing support to remember injections, view progress and helpful educational materials which may keep patients and caregivers motivated and engaged. Not only is our unique digital approach shown to improve height outcomes for patients compared to non-connected devices² and it harnesses the power of technology to help meet the digital ambitions of the NHS 'Fit for the Future Plan'.

To ensure patients on our growth hormone therapy get the most from their treatment we offer a comprehensive patient support programme, designed to complement the care and support received from their healthcare professionals. Offering access to qualified nurse visits to the patients home along

with dedicated telephone support, both work in harmony with our Growzen™ solutions to give patients the support they need.

At this year's BSPED meeting, Merck will be holding a symposium – please see the online programme for details.

SANDOZ

Sandoz is a global leader in generic pharmaceuticals and biosimilars. Our purpose is to pioneer access for patients by developing affordable approaches that address unmet medical needs. Our ambition is to be the world's leading biosimilar and generics company, and our broad portfolio of high-quality medicines covers major therapeutic areas.

Sandoz are proud to be a **Partner Sponsor** of the 52nd BSPED Annual Conference in Sheffield. We warmly welcome you to stand 4 in the exhibition hall.

In addition, we have two events taking place at the conference. Please see the online programme for details. All events are promotional and intended for healthcare professionals only.

Secure your place to both events by emailing patel.ketan_ext@sandoz.com

We look forward to welcoming you.

sanofi

We are an innovative global healthcare company, driven by one purpose: we chase the miracles of science to improve people's lives. Our team, across the world, is dedicated to transforming the practice of medicine by working to turn the impossible into the possible. We provide potentially life-changing treatment options and potentially life-saving vaccine protection to millions of people globally, while putting sustainability and social responsibility at the centre of our ambitions.

At this year's BSPED meeting, Sanofi will be holding a symposium and training station sessions – please see the online programme for details.

www.sanofi.co.uk

Novo Nordisk

Novo Nordisk is a leading global healthcare company founded in 1923 and headquartered in Denmark. Our purpose is to drive change to defeat serious chronic diseases built upon our heritage in diabetes.

At this year's BSPED meeting, Novo Nordisk will be holding two symposia – please see the online programme for details.

www.novonordisk.co.uk

The BSPED Annual Conference 2025 is sponsored by various pharmaceutical companies. These organisations have had no input into the development of the conference programme, or influenced the choice of speakers. This excludes the sponsored symposia sessions, where the programme is developed and speakers identified by the sponsor. Sponsoring organisations will not be contributing in any way to the organisation and running of any social activities around the conference period.

News from the BSPED Office

New Membership Benefit - Endocrine Connection Endorsement

Members of BSPED can enjoy exclusive publishing benefits in [Endocrine Connections](#) (co-owned by SfE and ESE). All accepted guideline manuscripts are published free of charge, and members also receive a 20% discount on the Article Processing Charge (APC) for any other manuscript published in the journal. Endocrine Connections is a leading open-access, peer-reviewed journal covering basic, translational, and clinical research across the full breadth of endocrinology.

Call for Committee and SIG Positions

BSPED members are encouraged to apply for committee positions where they feel that they can offer the society their expertise and experience. We remain grateful for the very strong and committed team of individuals acting as the backbone of the society.

Vacancies for all committees are advertised below and in [more detail on the BSPED website](#).

BSPED Programme Organising Committee Chair-Elect – DEADLINE: 30 November 2025

We are seeking a Chair-Elect to start shadowing Renuka Dias who will finish her term after the 2026 BSPED Annual Meeting. This position is a key role within the BSPED and is responsible for creating innovative and exciting scientific programme for the annual meeting. [Please see here for more information.](#)

BSPED Diabetes Officer on the Clinical Committee – DEADLINE: 30 November 2025

We are seeking a Diabetes Officer to replace Rachel Besser on the Clinical Committee. For more information, [please visit this link.](#)

Endocrine Nurse Officer on the Clinical Committee – DEADLINE: 31 October 2025

We are looking for a new Paediatric Endocrine Nurse Officer to join our Clinical Committee from asap, as Christine Desmond is stepping down. For more information, [please visit this link.](#)

Coordinator of The Disorders of Sex Development (DSD) Special Interest Group – DEADLINE: 31 October 2025

The DSD SIG is seeking a replacement Chair as Zainaba Mohammed will soon be stepping down from her position due to the end of term. SIG coordinators should hold office for a period of three years, [find out more information about the SIG](#).

Coordinator of Thyroid Special Interest Group

The Thyroid SIG is seeking a replacement Chair as Catherine Peters will soon be stepping down from her position due to the end of term. SIG coordinators should hold office for a period of three years, [find out more information about the SIG](#).

Applicants should send their CV, together with a max 200 word covering letter supporting their suitability for the position. All applications should be submitted by email to bsped@endocrinology.org by the indicated deadline.

Endocrine Nurse Officer on the Clinical Committee

We are looking for a new Paediatric Endocrine Nurse Officer to join our Clinical Committee from asap, as Christine Desmond is stepping down.

If you'd like to represent paediatric endocrine nurses in the Clinical Committee's important work and be involved in the development of guidelines and clinical resources, we'd love to hear from you.

Applications will be reviewed and the successful candidate selected by the Executive Committee and Clinical Committee Chair.

For more information, please see the role profile

Applicants should send their CV, together with a max 200 word covering letter supporting their suitability for the position. All applications should be submitted by email to bsped@endocrinology.org by 31 October 2025.

New BSPED Endorsement Policy

The BSPED is regularly approached to approve or endorse a wide range of activities and publications from individuals or organisations and has therefore developed a clear policy for all to follow. This policy outlines our principles and procedures in relation to such requests to ensure clarity, transparency, and appropriate governance. The policy covers the endorsement of projects such as education/research/surveys and events and well as general promotion of activities.

Please [review the policy](#) and make sure you submit in plenty of time before your project. The Clinical Committee always indicates in their section of the newsletter when you need to submit to meet their deadline for review.

Launch of online BSPED GH audit tool

We are pleased to announce the launch of the online BSPED GH audit tool. The tool will allow centres to enter patients who are starting GH therapy.

This will hopefully allow each centre to audit their performance and benchmark against national standards and performance. The tool will also be used as part of the BSPED peer performance. Please nominate a member of your team who will be responsible for completing the audit returns, so that we can provide access/login details for the online audit tool.

For further details please contact Guftar Shaikh guftar.shaikh2@nhs.scot (Peer Review/Audit Officer).

Membership prices frozen in 2025

Despite rising costs, BSPED have decided not to increase membership fees in 2025, with the aim to keep fees as affordable and accessible as possible for our members. Therefore, we can confirm your membership fees for 2025 have remained at 2024 rates.

We're grateful to all of you for being part of our community, promoting research, education and best practice to improve the care of children and young people with endocrine disorders and diabetes mellitus.

If you'd like to automate future renewals, it's quick and easy to do so. All you need to do is log in to your [online member area](#) and set up a direct debit, or recurring card payment, under Settings > Financial. If you have any questions or feedback about your membership, please contact us at bsped@endocrinology.org.

Virtual peer review – summary reports now available!

The summary reports from the 2025 peer reviews are now available in the members-only area of the BSPED website to help centres learn from each other. The BSPED Peer Review process provides centres with an excellent opportunity to learn from other centres, to gain support for resource requests and to ensure that they are operating to standards.

Thank you to all involved in the Newcastle and Alder Hey reviews earlier this year. Bristol, King's, Chelsea & Westminster and Glasgow are being booked in for the rest of 2025 and 2026. We will be in touch with centres who are due their next review and welcome proactive contact from centres.

Get involved!

We are looking for individuals to help with the review process, including nurses and DGH paediatricians, as well as tertiary consultants. We also strongly encourage GRID trainees to get involved with the reviewing process – supporting the lead clinician with note taking and documentation to build up experience. Please encourage your new GRID trainees to consider this as a development opportunity.

Please get in touch with Peer Review Officer **Dr Guftar Shaikh** on guftar.shaikh2@nhs.scot

Medical colleagues – if the nurses working with you do not receive this newsletter, please encourage them to join the BSPED, and contact the BSPED nurse representatives for further information: Peter Laing peter.laing@alderhey.nhs.uk and Karen Thompson karen.thompson@belfasttrust@hscni.net

Make the most of your membership benefits

The BSPED is an official endorsing society of the journal [Endocrinology, Diabetes & Metabolism Case Reports](#) (EDMCR). EDMCR is a unique, open access resource that publishes and links together case reports, enabling practitioners to communicate findings, share knowledge and convey medical experiences efficiently and effectively; furthering both medical education and clinical practice.

Endocrinology,
Diabetes & Metabolism
CASE REPORTS

Members of BSPED receive a 25% discount on the Article Publication Charge (APC) when their paper is accepted for publication in *EDM Case Reports*.

Help us keep in touch

As the BSPED communicates with members by email, please ensure that you notify the BSPED Office if your email address changes at bsped@endocrinology.org.

Trainee Update

COURSES AND EVENTS:

BSPED CME Day, 12th November, Sheffield

The BSPED Continuing Medical Education (CME) day is being held on Wednesday 12th November in Sheffield. This day will include educational sessions on a range of endocrinology and diabetes topics. Registration is currently open and a limited number of Conference Attendance Grants are available for trainees who are presenting abstracts (deadline 8th October). A trainee dinner will be held on Wednesday 13th November, with more details to follow.

[Registration | BSPED](#)

VPET (Virtual Paediatric Endocrine Teaching)

Previous VPET sessions have been added to the BSPED website members area and are now available on demand. VPET relies on trainees and consultants to deliver valuable teaching sessions. Please email vpet.trainees@gmail.com to sign up to deliver a session (providing your name, topic and facilitating Consultant (if delivered by a trainee)) or if you would like to be added to the mailing list.

London School of Paediatric Training day on Paediatric Endocrinology (Virtual): Thursday 6 November 2025 9:00am to 5:00pm (BST) Online

Sessions are led by a blend of generalists and subspecialists, ensuring you get a well-rounded, practical perspective on endocrine conditions. Interactive quizzes and case discussions will help you master the nuances of diagnosis and management.

Why Attend?

- Explore a broad range of common and rare paediatric endocrine conditions, with up-to-date background knowledge and the latest clinical advances.
- Learn how to approach, investigate, manage, and refer new endocrine presentations with confidence.
- Benefit from teaching by both generalists and leading specialists in paediatric endocrinology.
- Participate in case-based discussions and knowledge quizzes to reinforce learning and clinical decision-making.
- Gain the skills and confidence needed to diagnose, manage, and refer endocrine disorders encountered in everyday paediatric practice.

[Secure your spot today](#)

ANNOUNCEMENTS:

DSD Special Interest Group (DSD SIG)

Trainees are invited to attend DSD SIG meetings. For queries regarding participation and opportunities for case presentations, trainees can contact Dr Nadia Amin (nadia.amin3@nhs.net) or Dr Zainab Mohamed (zainaba.mohamed@nhs.net).

Trainee representatives for regional diabetes networks needed

All Regional Diabetes Networks, as part of the National Children & Young People's Diabetes Network, are seeking trainee representatives. If you are interested in applying for one of these roles, please contact the Network Manager of your regional network. Emails for all Network Managers can be found via: [NCYPD Network](#).

In addition, trainees are encouraged to join their regional networks during training as a useful learning opportunity. Please discuss with your supervisor or email your regional network manager to ask to be added to the regional circulation list.

Trainee involvement in Peer Review Process

The BSPED's national Peer Review programme started in 2011 and is seeking interested trainees to get involved with the reviewing process, supporting the lead clinician with note taking and documentation. This would provide an excellent learning opportunity and is open to any interested trainees from around the country, not limited to areas which are due a peer review.

If interested, please find further information here ([BSPED | Peer Review](#)) and contact Peer Review Officer Dr Guftar Shaikh (Guftar.Shaikh2@nhs.scot)

BSPED website updates

The training and development section of the BSPED website has recently been updated, with information on the Paediatric Endocrinology and Diabetes subspeciality training pathway.

BSPED Trainee Mailing List

We send regular email updates on courses, job opportunities and information on training to trainees who are on our mailing list. Please email bspedtraineeep@gmail.com for further details of how to join or if you have feedback on any training issues.

CSAC Diabetes and Endocrine Trainee Representatives:

Helen Couch

News from the Clinical Committee

Position statement: 'BSPED recommendations for the use of once-weekly long-acting growth hormone therapy in children with growth hormone deficiency'

The BSPED Growth Disorders Special Interest group (SIG) is delighted to highlight a new updated document on LAGH.

This document originally developed in 2024 has been updated to include guidance for both long-acting growth hormone (LAGH) preparations now licenced and approved by NICE -somatogon (Ngenla®) and somapacitan (Sogroya®) for the treatment of growth hormone deficiency in children and young people aged three years and over.

This revised position statement aims to summarise the latest data and provide recommendations on dosage and surveillance for clinicians prescribing LAGH. It will be updated as new LAGH preparations are accessible to patients in the UK.

[View the new statement.](#)

Updated Patient Leaflets

We have recently updated two patient leaflets which can be found on the website. Please refer to these updated versions when discussing with patients and families.

[Pros and Cons of Growth Hormone Therapy](#) and noting the change in name of Diabetes Insipidus to [Arginine Vasopressin Deficiency](#).

NICE Guidelines

The Clinical Committee has submitted comments on the following NICE consultations in the recent months and will keep you informed of the outcomes:

- Overweight and obesity management guideline
 - Semaglutide for overweight and obesity
 - Scoping Workshop and Consultation Invitation (All C&C): Achondroplasia (4 months and over) - vosoritide
-

Patient information resources

A reminder that the BSPED has produced a suite of patient information leaflets covering a number of conditions and designed to give general information about a patient's condition and treatment. To access these leaflets for your patients, as well as the BSPED Adrenal Insufficiency Card, please visit the [Patient Information section of our website](#).

You can also find links to relevant [patient resources](#), such as patient support groups on our website.

Meanwhile, www.explain.me.uk was developed as part of a project to improve communication between young people, their parents/carers and healthcare professionals in endocrine clinics. The website is looked after by BSPED. [We'd love to know how you use this with your patients.](#)

Translations of Adrenal Insufficiency Steroid Card

With thanks to our members and their colleagues, we now have the following translations available for the BSPED Adrenal Insufficiency Card:

[++NEW Mandarin ++](#)

[Slovakian](#)

[Arabic](#)

[Greek](#)

[Polish](#)

[Romanian](#)

[Turkish](#)

[Urdu](#)

CAN YOU HELP? So far, we have translators for the following languages but we are seeking reviewers for these:

- **French**

Please note that you do not need to be a BSPED member to assist with translations.

If you are fluent in another language (or already have a translation within your trust) and could help us build our suite of translated cards, please get in touch with [Christine Desmond](#) who is coordinating this project. We would like to find two members for each language so that one can translate the card and the other check/review the translation.

[All translated cards will be available on the BSPED website](#), once reviewed and approved.

Use of and comments regarding guidelines

BSPED guidelines have been commissioned and endorsed by the BSPED and reflect the Society's views on best practice for the majority of patients with that condition. However, each patient should be considered as an individual in the context of their condition and other medication and therefore the readers' discretion is required in the application of their use. Every effort has been made to ensure the factual accuracy of the contents but no liability can be accepted for any litigation, claims or complaints arising from the use of the guidelines.

If you have a query or comment, or would like to raise a concern regarding a BSPED guideline or any guideline on our website, please contact the [BSPED Office](#) who will ensure your message is passed to the BSPED Clinical Guidelines Officer and Clinical Committee.

Including your survey in the newsletter

If you would like to include a survey in a BSPED newsletter to encourage responses from BSPED members, it must first be reviewed by the BSPED Clinical Committee.

- Your survey should be reviewed by the Clinical Committee at a stage where it can still be amended and before it is circulated elsewhere.
- The Clinical Committee meets four times per year and the deadlines for submission of agenda items are published in the newsletter.
- Your survey should be submitted to [the BSPED Office](#), in Word format.
- The introduction to the survey should explain its purpose and the closure date of the survey.
- The survey will either be approved for inclusion in the newsletter as it is, or feedback will be provided to the author.
- Survey owners should agree to report their findings back to the Clinical Committee 6 months after the survey closes.
- The BSPED should be acknowledged in any output (guidelines, publications, presentations, etc.) resulting from the survey and the BSPED Office informed of the output.

[Deadline for submissions to the Clinical Committee for consideration: 10 November 2025](#)

Process for endorsement and development of clinical guidelines and standards

The BSPED Clinical Committee is committed to supporting its members in creating robust, evidence-based guidelines. The Committee is not resourced to independently develop national clinical guidelines, but will serve as a key stakeholder in guideline development relevant to paediatric diabetes and endocrinology and will take responsibility for endorsing guidelines produced by other organisations. **In order for a standard or guideline to be endorsed by the BSPED, the procedure set out on our website must be followed.** This involves the early involvement of the Clinical Committee in the development of the document. [The Endorsement Process is available on our website.](#)

[Deadline for submissions to the Clinical Committee for consideration: 10 November 2025](#)

Announcements

Job Opportunity: Consultant in Children and Young People's Diabetes and Endocrinology

The University College London Hospital (UCLH) are looking for a Consultant to join their Paediatric Endocrinology team. The Children and Young People's Diabetes Service is well established and is one of the largest in the UK, using the latest diabetes technologies including hybrid closed loop insulin delivery systems. The service provides intensive support for young people struggling with their diabetes.

They are seeking applicants with a holistic, team-working perspective who is driven to work in a high performing team and strives to continually improve care.

Do you or someone you know have the capabilities to thrive in this role? [Find out more and apply on the UCLH website.](#)

Shape the Future of Paediatric Bone Health with the ESPE Bone Academy

The European Society for Paediatric Endocrinology (ESPE) are excited to announce the launch of the **ESPE Bone Academy** - a specialised, long-term education programme designed to meet the growing need for expertise in paediatric bone health.

Aimed at mid-career and senior physicians, the Academy offers a unique opportunity to deepen knowledge in diagnosing, treating, and managing rare and complex bone conditions in children and adolescents.

The two-year programme combines in-person and online learning, starting with a **1.5-day meeting in Paris on 24–25 February 2026**, followed by a **series of webinars from March 2026**. With 14 modules covering clinical skills, scientific insights, and practical strategies, participants will be empowered to lead in clinical practice, research, and multidisciplinary collaboration.

Places are limited – [find out more and apply now](#) to be part of this prestigious initiative and **help shape the future of paediatric bone health.**

Meetings and courses

Growth Disorders 2025: Current Challenges, Solutions, and Recommendations 30 April to 31 October 2025

The independent Medical Communications Agency, MedEA will organise a package of educational events in 2025 entitled Continuing Medical Education (CME) Activities Tackling Identified Learning Needs in Growth Disorders. These activities have been endorsed by the BSPED and will be CME accredited. For more information click [here](#).

Addison's Disease Self Help Group: Supporting Young People with Adrenal Insufficiency (ages 13 - 18) Online Webinar 18 November 2025

Addison's Disease Self Help Group are excited to invite you to their special webinar series focusing on improving support for young people living with adrenal insufficiency. Led by experts Kate Davies, Associate Professor in non-medical prescribing and Paediatric Endocrinology and Karen Thompson, Paediatric Endocrine Specialist Nurse. [Find out more and register your spot.](#)

EXTOD Two-Day HCP Conference
Liverpool
24 – 25 November 2025

EXTOD Healthcare Professionals National Conference will be delivered by EXTOD and organised by SBK Healthcare. This unique forum will equip Diabetologists, Diabetes Specialist Nurses, Dietitians and Paediatricians with the knowledge, inspiration, and practical understanding of how to support Type 1 patients to undertake safe and effective exercise. Find out more about the [HCP Conference](#).

GPED Annual Meeting 2025
29–30 November and 6–7 December 2025

The **Second GPED Annual Meeting 2025** will take place virtually on **29–30 November and 6–7 December 2025**, from 13:00 to 17:00 GMT. This annual meeting provides a global platform to advance the care of children and adolescents with endocrine and metabolic disorders, with a strong focus on the unique challenges and opportunities in resource-limited settings. GPED is a non-profit organization established in 2010 with the mission of improving the care of children with endocrine disorders or diabetes in low- and middle-income countries (LMICs).
